MEP GREEN DESIGN & BUILD specializes in delivering comprehensive Mechanical, Electrical, Plumbing, and Fire Protection systems design and installation, complemented by a wide range of specialty services including LEED® Consultancy, Testing and Commissioning, and Building Information Modeling (BIM 360). Our tailored solutions are geared towards the commercial, hospitality, multifamily, educational, medical, retail, and industrial sectors, ensuring that each project is approached with meticulous attention to detail, cost-effectiveness, and client satisfaction.

MEP GREEN DESIGN & BUILD stands out for its unparalleled expertise and is led by our President, Dr. Dung Vu, who has over 35 years of experience. We deliver outstanding value to our clients. Our designs are not only innovative and buildable, but also cost-effective and of the utmost quality. We are dedicated to consistently improving the quality of our work and ensuring that all of our clients' goals are achieved in a timely and efficient manner.

MEP GREEN DESIGN & BUILD takes a sensitive approach to energy efficiency and environmental sustainability. We have LEED® Accredited Professionals who can guide your project through the LEED® certification process. In addition, we continue improving our services by continually implementing the most advanced technology into our MEP designs. By utilizing Computational Fluid Dynamics (CFD) and Flow Modelling analysis, we can accurately determine how a mechanical system meets the design criteria and desired comfort level of a specific room. In addition, the use of MEP Revit and BIM 360 tools facilitates improved coordination and building performance, leading to a wide range of economic, environmental, and societal benefits.

MEP GREEN DESIGN & BUILD boasts an extensive network comprising a central office located in Houston, Texas, a branch office situated in Orange County, California, three offices in Vietnam, and two offices in Myanmar. Our widespread international network allows us to work tirelessly around the clock to meet even the tightest deadlines, combining the resources of a global corporation with the personalized care and meticulous attention to detail of a dedicated local team.

MEP GREEN DESIGN & BUILD is backed by a robust team of 100+ MEP engineers, designers, and drafters, led by a group of highly experienced Professional Engineers. With a track record of delivering over 1,500 projects across diverse industries, we excel in providing MEP designs for hotel projects, catering to international franchises, with a swift turnaround time of three weeks. Our commitment to customer satisfaction is evident in our prompt response to client needs and requests, with a maximum response time of just 2 hours.

MEP GREEN DESIGN & BUILD has earned recognition as a leading design firm, having been included in Hotel Management Magazine's list of top firms in both 2021 and 2022, as well as in the 2023 issue. Additionally, Construction Business Review has identified MEP GREEN DESIGN & BUILD as one of the Top 10 Building Service Providers for 2023.

MEP GREEN DESIGN & BUILD is licensed, experienced, and fully eligible to obtain Construction Permits in all 50 States as well as Puerto Rico. Our team's extensive local experience has provided permitting in over 150 cities across the U.S.

STANDARD DESIGN SERVICES

1. Mechanical

2. Electrical

3. Plumbing

4. Fire Protection/Fire Alarm

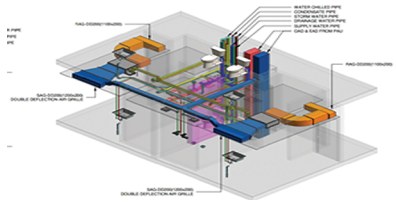

5. ELV

6. Lighting

7. Revit MEP/BIM 360

8. LEED Consultancy

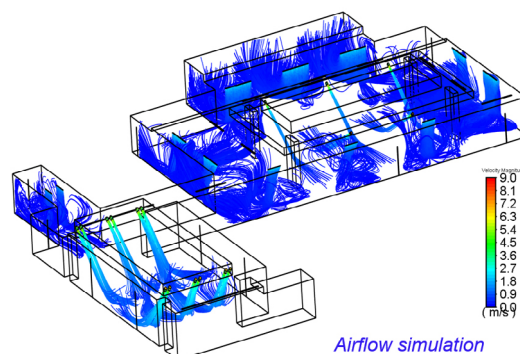

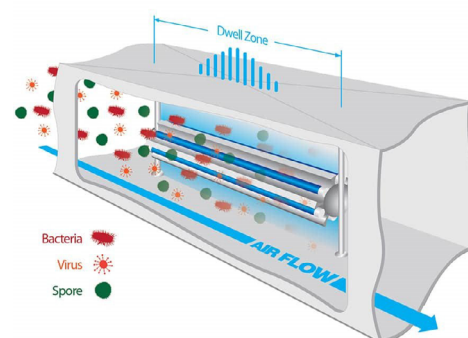

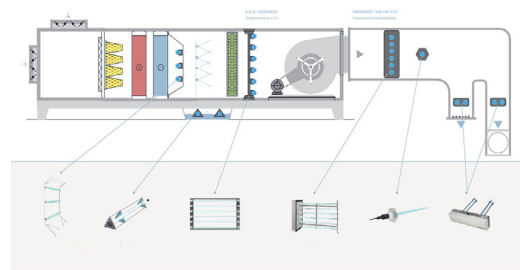

9. Acoustic Control

SPECIALTY SERVICES

1. Mechanical systems designed to decrease the spread of COVID-19 and airborne pathogens
2. 3rd Party Testing and Commissioning
3. 3rd Party Site Inspection
4. MEP Construction Management and Project Management
5. 3rd Party Consultancy for 179D Energy Efficiency Tax Deduction
6. Existing MEP Lifespan Assessment
7. Computational Fluid Dynamics (CFD) Analysis
8. Building Envelope Analysis
9. Energy Modeling
10. Flow Modeling Analysis

III. FIRM LEADERSHIP

DUNG VU, Ph.D.,P.E.,LEED A.P.

President

Dr. Dung Vu, the founder of MEP Green Design & Build, PLLC based in Houston, Texas, USA, boasts an impressive array of qualifications and licenses. He holds a Ph.D. and LEED A.P. earned in the United States, as well as Professional Engineer licenses for all 49 states and Puerto Rico. Dr. Vu achieved the highest academic honor of Summa Cum Laude with his Executive Ph.D. in Business Administration from Oklahoma State University, completed through the AACSB program known for its commitment to quality assurance, education intelligence, and learning and development services. Additionally, he is licensed with a Class A License for Air Conditioning & Refrigeration Contracting in the State of Texas and holds a Fire Sprinkler RME-G License, authorizing him to plan, install, and certify fire sprinkler systems. With over 35 years of experience in MEP design and installation across various building types such as hotels, high-rise apartments, theaters, resorts, factories, healthcare facilities, and educational centers, Dr. Vu serves as the company's President. In this role, he sets strategic direction, oversees revenue and profitability growth, identifies significant opportunity areas, and establishes appropriate organizational structures and policies. He personally supervises hundreds of MEP design projects to ensure the company's high-quality standards are consistently met.

PAT POWELL, P.E., ProFM | Business Development Director

Pat Powell has over 35-years experience in the MEP industry, including design, project management, construction administration and sales. Pat holds a Bachelor of Science in Mechanical Engineering from Texas A&M University. He is a licensed Professional Engineer and has earned a ProFM credential. Pat joined MEPG in 2022.

OM P. NANGIA, P.E. | Associate

Om P. Nangia has 45-years experience in design, construction and plant maintenance. For the development of our firm, he has been a key design partner of MEP design and build for mTany hotel projects in the US. He earned his Professional Engineer License in more than 23 States in the USA.

RAYMOND MASON, P.E. | Senior Electrical Engineer

Raymond Mason has over 21-years experience in design of electrical systems. He has contributed to a variety of projects including high-rise buildings, oil and gas plants, industrial facilities, office buildings, etc. He oversees and approves all the electrical designs of our company before sending them to our clients or the cities for approval.

MARTHA McNICHOLAS, P.E. | Senior Mechanical and Plumbing Engineer

Martha McNicholas has over 25-years experience in design, plan examining and managing engineering systems for commercial, healthcare and hotel facilities. Martha earned a Bachelor's degree in Mechanical Engineering from the University of Havana. She is a licensed Professional Engineer. Martha joined MEPG in 2020.

PETER NGUYEN, BSE | Project Director

Peter Nguyen began his career at MEPG as Project Coordinator/Mechanical Designer at the Houston office in 2016. Peter holds a Bachelor of Science in Mechanical Engineering from Saint Martin's University. His hands on experience, education, work ethic, and motivated spirit make him the perfect person to provide a combination of world class customer service and technical knowledge to our clients. Similar to the engineers, he is experienced in US Standards (UMC, NFPA, CMC) and International Building Code (IBC).

PAUL LE, BSE | QM/QC Manager

Paul Le has over 20 years of experience in designing and managing MEP systems. He earned his BSE, majoring in Mechanical at Ho Chi Minh City University of Polytechnic in 2001. Paul has extensive experience in MEP design for high-rise buildings, hospitals, hotels, resorts, and commercial buildings according to international specifications, standards, and codes such as US Standards (NEC and NFPA), British, and Australian and Australian Standards, and International Building Code. He takes full responsibility for checking and approving all MEP designs before submitting them to the clients and providing full support for projects under the construction and administration stage.

TRI NGUYEN, BSE

Director of Operation – Vietnam Office

Tri Nguyen has over 25-years experience in design and management of MEP systems. He earned his Mechanical Electrical Practice Certificate to provide professional services in design consultancy of infrastructure works and MEP systems for high-rise buildings, airports, hotels, resorts and commercial buildings. He has designed a variety of large and well known projects in Vietnam according to the international specifications, standards and codes such as US Standards (NEC and NFPA), British Standards, Australian Standards, Singaporean Standards, International Building Code and all Vietnam and Myanmar Standards.

BILL NGUYEN, BSE

Project Director – Vietnam Office

Bill Nguyen has over 18-years experience in design and management in MEP section. He earned his BSE, major in Plumbing and Drain at Ho Chi Minh City University of Technology and Education and Registered Engineer for Plumbing and Drain, Mechanical and Electrical Engineering Services. He has extensive experience in MEP design for high-rise buildings, hospital, hotels, resorts and commercial buildings according to the international specifications, standards and codes such as US Standards (NEC and NFPA), British Standards, Australian and Singaporean Standards, International Building Code and all Viet Nam and Myanmar Standards.

RICHARD TRAN, BSE

Project Director – Vietnam Office

Diep Tran has over 16-years experience in design and management in MEP section. He earned his BSE at Fisheries University and Registered Engineer for HVAC Design Practice Certificate. He has extensive experience through various positions including project director, vice director of technical, manager of costing (estimating) & tendering, testing & commissioning of design and build for high-rise buildings, hospital, hotels, resorts and commercial buildings according to the international specifications, standards and codes such as US Standards (NEC and NFPA), British Standards, Australian and Singaporean Standards, International Building Code and all Viet Nam and Myanmar Standards.

HARRY DANG, BSE

QMQC Section – Vietnam Office

Harry Dang has over 20-years of experience in construction and project's management of MEP Systems. He earned his BSE at Ho Chi Minh City University of Polytechnic in 2001. Throughout the years, he has worked as a site engineer, project manager that handling mechanical, electrical and plumbing scopes for various type of projects such as commercial, industrial, retail and residential. As QMQC Section at MEPG, Harry oversees all aspects of our design, ensuring quality, Control all technical drawings, specifications, descriptions, spreadsheets of all projects before release to the clients.

TUAN NGUYEN, BSE

QMQC Section – Vietnam Office

TUAN NGUYEN has over 15-years of experience in quality control and quality assurance of MEP Systems related services. He earned his BSE Major in Electrical Engineer at Can Tho University and his Master degree in Automation at Ho Chi Minh City University of Technology. Throughout the years, he has worked as a quality control, quality assurance officer for both MEP installation and MEP design services for various type of projects such as commercial, industrial, retail and residential. As QMQC Section at MEPG, Tuan oversees all aspects of our design, ensuring quality, Control all technical drawings, specifications, descriptions, spreadsheets of all projects before release to the clients.

DEVELOPERS

Andrew G. Wood | Principal

“...Design deliverables were of high quality at all times, submitted timely and in line with the project’s tight and critical deadlines...”

Hiren “Chico” Patel | President

“...MEP Green Design stands out from other engineering firms for many reasons: They are prompt in everything they do, whether it is responding to emails and comments or meeting pressing deadlines. Making revisions is a breeze, as they are more than willing to cooperate with owners, developers, contractors, and others working on the project. They are knowledgeable in code compliance and are very easy to work with....”

Ritesh Patel | President

“...Their team is extremely knowledgeable and easy to work with, which has assisted us as the Developer throughout all design phases, recommending the most efficient, time and cost saving solutions to our project. Designs deliverable are always of high quality and submitted in a timely manner to meet every stringent deadline and budget...”

Rupesh Patel | Chief Executive Officer

“...The firm is knowledgeable, professional, and responsive during the complete process. They are always ready to adapt to new ideas and we have seen them incorporate these ideas in the ongoing as well as future projects...”

Rachael Lambert | Vice President of Construction

“...We have been extremely impressed with MEPG’s performance and look forward to another successful project...”

OTHER PROFESSIONAL FIRMS

Kartavya (Kevin) Patel, P.E. | Developer/Property Owner

“...Dr. Vu’s high level of knowledge and experience in MEP design & installation has been invaluable to the effective construction and completion of all our recent hotel developments...”

Jason Salazar | Principal

“...I highly recommend MEP Green Engineering for their exceptional level of expertise, unparalleled speed, accuracy, and extensive experience in the field. Their team consistently delivers top-notch engineering solutions, making them a valuable asset to any project...”

Fareena Dawood, AIA | Principal Architect

“...Dr. Dung Vu, MEP Green Design and Build’s President and CEO, attends all design development meetings, listens carefully to our requirements, and then proposes solutions in-keeping with our design intent, and within our client’s budgets...”

MEP MANUFACTURERS/SUPPLIERS

Jeff Hunter | Manager

“...MEP Green Design and Build’s team is very professional, knowledgeable and timely with their communications with Carrier regarding HVAC equipment selection, specification and application, taking into consideration requirements for each design...”

ARCHITECTURE FIRMS

Mario Bolullo, R.A. | Design Partner

"...Green Design has been proven successful with repeat clients and in diverse circumstances, particularly in complicated international projects..."

Ryan Mackowiak | Architect

"...Their drawings are extremely high quality, precise and thorough. They are extremely fast in their project delivery. Their communication through the design and construction process is very fast, which helps me serve my client's needs without delays. They have become my go-to MEP engineering firm and I look forward to working with them on many projects in the future..."

Paul Kao | Principal

"...Dr. Dung Vu, and his team have offered MEP Engineering Services to numerous commercial projects and hotels associated with our company. Their services are proficient, timely, and conducted with a high level of professionalism, satisfying our clients' requirements..."

Sid Parekh | Principal Architect

"We have been working with MEP Green Design & Build since 2015 and they have done over 100 hotel and other commercial projects with us. Their quick responses, value for other people's time and vast knowledge of their field of expertise makes them an automatic choice for engineering design for us and our clients. We have no hesitation in recommending them to any of our clients needing engineering design services".

Mahesh Wadhwa | Architect

"The quality of work that MEP Green provides to our projects as well as the rest of their work is testament to their professionalism. This characteristic is foremost in business as well as their continued dedication to the engineering profession. We are happy to call them as our design partner as well as friends. We look forward to working with MEP Green as they continue to provide these services to their clients and the community."

VIETNAM AND MYANMAR CLIENTS

Phu Nguyen | M&E Design Manager

"...MEP Green Design & Build's President, Mr. Dung Vu, and his team have offered MEP Engineering Services to numerous commercial projects and hotels associated with our company. Their services are proficient, timely, and conducted with a high level of professionalism, satisfying our clients' requirements...."

Moe Kyaw Thu | Director of Operations

"...We highly recommend MEP Green Design & Build Myanmar Co., Ltd for your need of MEPF systems design, installation and project management services. We are totally satisfied with their performance and quality of work being the main MEP contractor..."

Vu Van Tuan | General Director

"...The team led by MEP Green possesses excellent skills and vast experience in designing hotels and resorts, and they have put forth commendable conceptual ideas..."

Hugo Weijermars | Project Director

"...MEP Green Design and Build's team was extremely knowledgeable, professional and easy to work with. They assisted us as the Developer throughout all design phases, recommending at the same time the most efficient, time and cost saving solutions for our project. Design deliverables were of high quality at all times, submitted timely and in line with the project's tight and critical deadlines...."

UNIQUE

Successfully completed **1500+ world-class** hotels across a variety of locations and franchises. MEPG has become well recognized and recommended by many major franchises such as: **IHG, Hyatt, Wyndham, Sheraton, Marriott, Hilton, Movenpick, Choice, and Accor.**

Over 35 years experienced in both **MEP Design** and **MEP Installation**.

Specific team highly trained and proficient in **REVIT MEP** and **BIM360** to produce the most detailed 3D drawings

Licensed and fully eligible to obtain Construction Permits in **all 50 States as well as Puerto Rico**

Accredited and recognized by reputable organizations, such as being named a **Top Design Firm of 2021, 2022 and 2023 by Hotel Management Magazine** and **Top 10 Building Service Providers 2023 by Construction Business Review**

Experience in efficiently coordinating and quickly producing permitted plans with well-established national brands across a variety of industries such as **Cano Health, DashMart by DoorDash, My Salon Suites**, and many more.

All work completed **100% in-house** to ensure fast and accurate production with zero design error

In-house **LEED Accredited Professionals**

Consistently obtained permits in over 150 cities within **2 rounds of review or less**

Quick turnaround, competitive prices, and resources of a large firm coupled with the care, attentiveness, and specific knowledge of a local team

FAST & ACCURATE

Apply **modern technology** to expedite design process

Respond to any needs within **two hours** notice from clients.

Work **around the clock** to meet any deadline.

Optimum Design Procedure

Complete QMQC check list striving for **zero design errors**.

Embrace the newest, highest technology **Revit MEP**.

Fully Coordinate with other trades for highest quality designs.
